

# FRANCIS ALFONSO L. BANDELARIA

## Junior Software Engineer

I've been working as a Software Engineer for nearly two years, focusing on both frontend and backend software development. Along the way, I've also gained experience in web development and explored some cybersecurity tools. I'm always looking to improve and learn new things, and I enjoy being part of a team where I can grow not just as a developer, but as a professional and also as an individual.
